CITY OF THE VILLAGE OF CLARKSTON

Historic District Commission

Certificate of Appropriateness

July 22, 2022

Plans for:	375 Depot Road Bridge
Applicants:	Jonathan Smith

The Clarkston Historic District Commission (HDC) approved a Certificate of Appropriateness (CoA) for construction of a footbridge in Depot Park during a July 12, 2022 meeting, based on the application dated June 22, 2022.

This Certificate of Appropriateness is issued based on information in the application and materials provided by the applicant, including a site plan locating the new bridge, and a construction drawing showing the appearance of the bridge.

This CoA is for new construction of a wooden foot bridge (on concrete footings) over a portion of the Depot Park Rain Garden to allow pedestrian traffic to walk over the bridge rather than through the garden.

The new bridge will be all wood, and is ADA compliant. This would be a safety measure and will not detract from any nearby historic materials or resources.

This satisfies DOI Standards #9 and # 10.

Applicants must return to the Historic District Commission with any changes of design or materials

A Certificate of Appropriateness (CoA) is only approval for the requirements of the City of the Village of Clarkston Historic District and does not replace or supersede zoning, building construction permits, other city ordinances and legal requirements. A Historic District Commission CoA is valid for one year. If the approved work is not complete within that time, please contact the city office for review.
