At the Clarkston Historic District Commission (HDC) meeting held on June 9, 2026, the commission voted to grant a Certificate of Appropriateness (CoA) to remove and replace the existing asphalt shingles on the 1994 garage at this location with GAF HDZ Architectural Algae Resistant Roof Shingles; Color – Weathered Wood to match original color (photo provided).

The Secretary of Interior Standards for Rehabilitation #6 and #10 appear to apply.

Homeowners must return to the HDC with any changes of design or materials. A Certificate of Appropriateness is only approval for the requirements of the City of the Village of Clarkston Historic District and does not replace or supersede zoning, building construction permit, other city ordinances and legal requirements.

A Historic District Commission CoA is valid for one year. If the approved work is not complete within that time, please contact the city office for review.
