

CITY OF THE VILLAGE OF CLARKSTON
Historic District Commission
Certificate of Appropriateness

Plans for: 32 S. Main Street

Applicant/Building Representative: Kim Allard on behalf of Stuart Siegner, owner

The Clarkston Historic District Commission grants a Certificate of Appropriateness June 27, 2017, for plans as presented regarding the addition of unlit signage on the Church Street facade of 32 S. Main St., as presented in drawings. The new sign closely matches existing signage on the building's Main Street facade. The CoA was issued with the caveat that the work meets approvals and guidelines established in other city ordinances and commissions.

This project adequately meets the Secretary of the Interior's Standards for Rehabilitation, most notably number ten, that "new additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired."

It is understood an HDC review is integrally based on the lack of precedence as each reviewed structure is unique in age, condition, relevance in defining characteristics, and other considerations, and therefore the setting of precedent is impossible. Also, a CoA is **not** synonymous with a building permit, so applicants should maintain contact with the city building department, and possibly other city agencies, to confirm compliance of other ordinances and city laws.

The members of the Commission wish you well with your project. Please contact us if you make any additions or changes to your plans.
